

# NORTHERN ARIZONA CENTER FOR Emerging Technologies

## **THE NORTHERN ARIZONA CENTER FOR EMERGING TECHNOLOGIES (NACET)**

is a technology business incubator and business accelerator located in Flagstaff, Arizona. NACET offers selected early-stage businesses a menu of traditional services such as furnished office and laboratory space, business consultation, shared office equipment, administrative support, business education and workshops. Residents and affiliated companies receive added value through NACET's association with Northern Arizona University and other educational institutions.

### **The role of the Center is twofold:**

To Increase the number of successful technology-based small companies in Northern Arizona, and to promote and accelerate university, Federal Laboratory and industry technology transfer and commercialization.

### **MENTORS AND COACHES**

NACET has enlisted dozens of professionals in various fields of business to support our affiliates. Advisors, who are proven experts in accounting, law, marketing, and venture capital access are on hand to mentor our members and help them navigate complex business issues at every stage of growth. Our dedicated staff is on-site to assist with all aspects of business planning, early-stage funding, and joint research opportunities.
